Paper details

- **Paper Title:** A conceptual model and taxonomy for collaborative augmented reality
- **Authors:** XXXX
- **Published in:** IEEE TVCG
- **Year of publication:** 2021
- **Number of pages:** xx
- **Citations:** 88 – (if applicable – you may check Google Scholar to find this information)
- **Complete Reference:** *Marques, B., Silva, S., Alves, J., Araujo, T., Dias, P., & Santos, B. S. (2021). A Conceptual Model and Taxonomy for Collaborative Augmented Reality. IEEE Transactions on Visualization and Computer Graphics, 28 (12), 5113-5133.*

Why this paper

- Explain the choice of this paper and its relevance.

Motivation

- Make an introduction and contextualization of the problem.

Methodology

- Describe what was the methodology adopted by the authors for overcoming the challenges of the problem at hand?

Contribution

- Explain what was proposed by the authors to address the problem previously described;
- Do not use too much text or animations– Instead, include figures, graphics, videos, etc., when suitable/available.

User Evaluation

- If conducted by the authors, you should include the details of the user evaluation.
- Consider the following topics:
 - What was the goal of the evaluation?
 - What was the experimental design and setup?
 - What were the tasks used?
 - How was the data collection conducted?
 - What was the procedure used?
 - Describe the participants recruited.

Results obtained

- List the main results obtained by the authors and comment their importance. Are they promising?
- If described in the paper, you may also present the limitations of the work.
- .
- .

Conclusions

- Present the most important conclusions of the paper.

Ideas for future work

- Describe the main ideas to continue the work being presented in the paper;
- What are the next steps?
- .

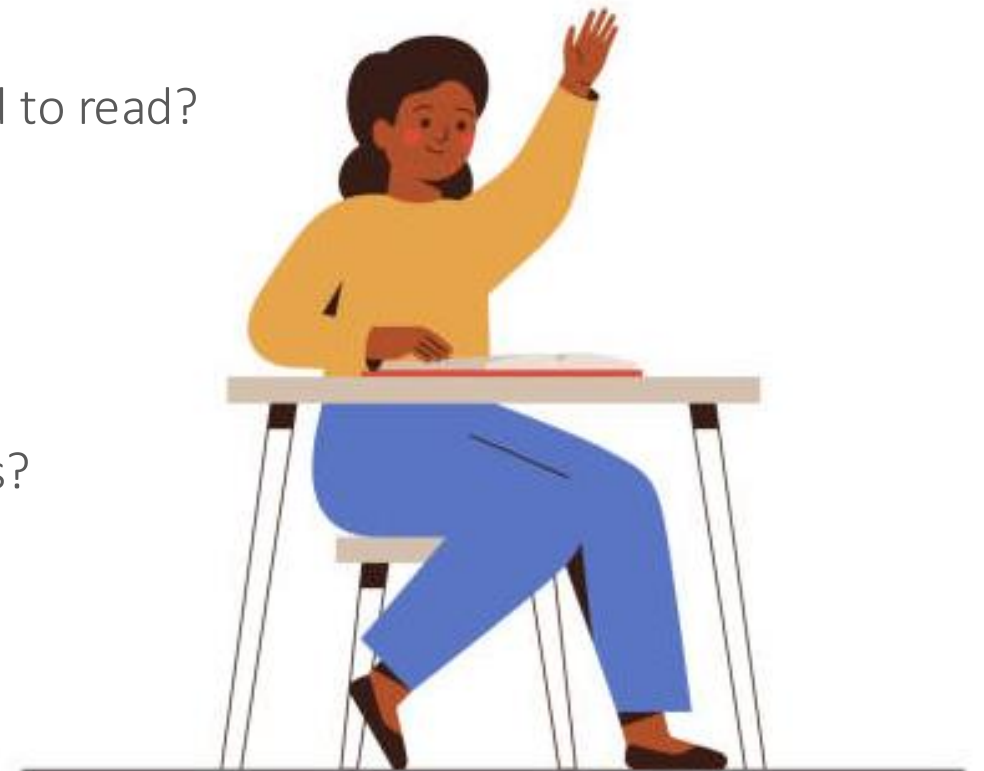

Bibliography

- Include all the bibliography and sites used to prepare the presentation.

Personal opinion

- Include Present the most important aspects from your point of view!
- For example, consider some of the following topics:
 - Did you enjoy reading the paper? Was it easy or hard to read?
 - Was the abstract and introduction well written?
 - Did the paper had too much detail?
 - What was the novelty in the paper?
 - Where figures relevant to understand the main ideas?
 - Was the methodology adequate to the problem?
 - Were the results expected and well discussed?
 - What did you enjoy most about the paper?

Remember

- Around 20 slides should be enough for 20 min;
- Slides must be numbered (except for the first one)
- You may present in either Portuguese or English;
- Use a formal, correct and accurate language;
- Speak clearly, fluently, and enthusiastically;
- Look at the audience and have a correct stance/attitude;
- Be prepared for a 5 min Q&A session;
- Send the presentation to bernardo.marques@ua.pt and bss@ua.pt before the lecture (in pdf).

Paper Presentation - Assessment

- After each presentation, a discussion period will occur;
- Professors and students will vote on their colleagues' presentation (through Moodle);
- Scale:
 - 18/20 - Very good
 - 18/20 - Good
 - 14 - Pass +
 - 12 - Pass -
 - 8 - Failed
- Taking into consideration:
 - Relevance of the topic
 - Organization and clarity of the slides
 - Presentation (motivation, clarity and attitude)
 - Answers to the questions
 - Time

Good luck
